Graded Components all assessments should reflect the language and materials presented in this course.

Cartography, Remote Sensing, and Drone tests will be completed in Nexus, and based on material covered prior to the test, (i.e., Test 1 on Cartography materials). The test MUST be completed within the time frame set by the faculty member (TBD in class). The tests will be online, and a time period identified that students must complete the test within that period. Thus students need to keep up with materials for Module 1: Cartography which will have a test at the end of the module, etc.
